

RATE BILL IS SAILING ALONG

Allison's Compromise Amendments Adopted
By The Senate This Morning.

LA FOLLETTE'S "OBJECT" IGNORED

Two Radical Amendments Presented By Bailey And Bacon
Rejected; Latter By A Vote Of
24 To 52.

[BY ASSOCIATED PRESS.]
Washington, May 11.—When the senate met today Allison promptly presented his compromise amendments. The first amendment, which strikes out the words "fairly remunerative" from the fourth section of the bill, was adopted without division.

Wisconsin's Bob Rebuked
La Follette made an objection to the second amendment. Referring to two years the continuance of the commission's orders, but the amendment was adopted.

Senator Bacon offered an amendment requiring hearings on injunction proceedings and requiring also the presence of two judges, one of whom shall be a circuit judge, at such proceedings. This was rejected by a vote of 24 to 52.

No Hearings on Injunctions
Senator Bacon offered an amendment requiring hearings on injunction proceedings and requiring also the presence of two judges, one of whom shall be a circuit judge, at such proceedings. This was rejected by a vote of 24 to 52.

SHARON WISHES THEY MADE NO COMPLAINTS

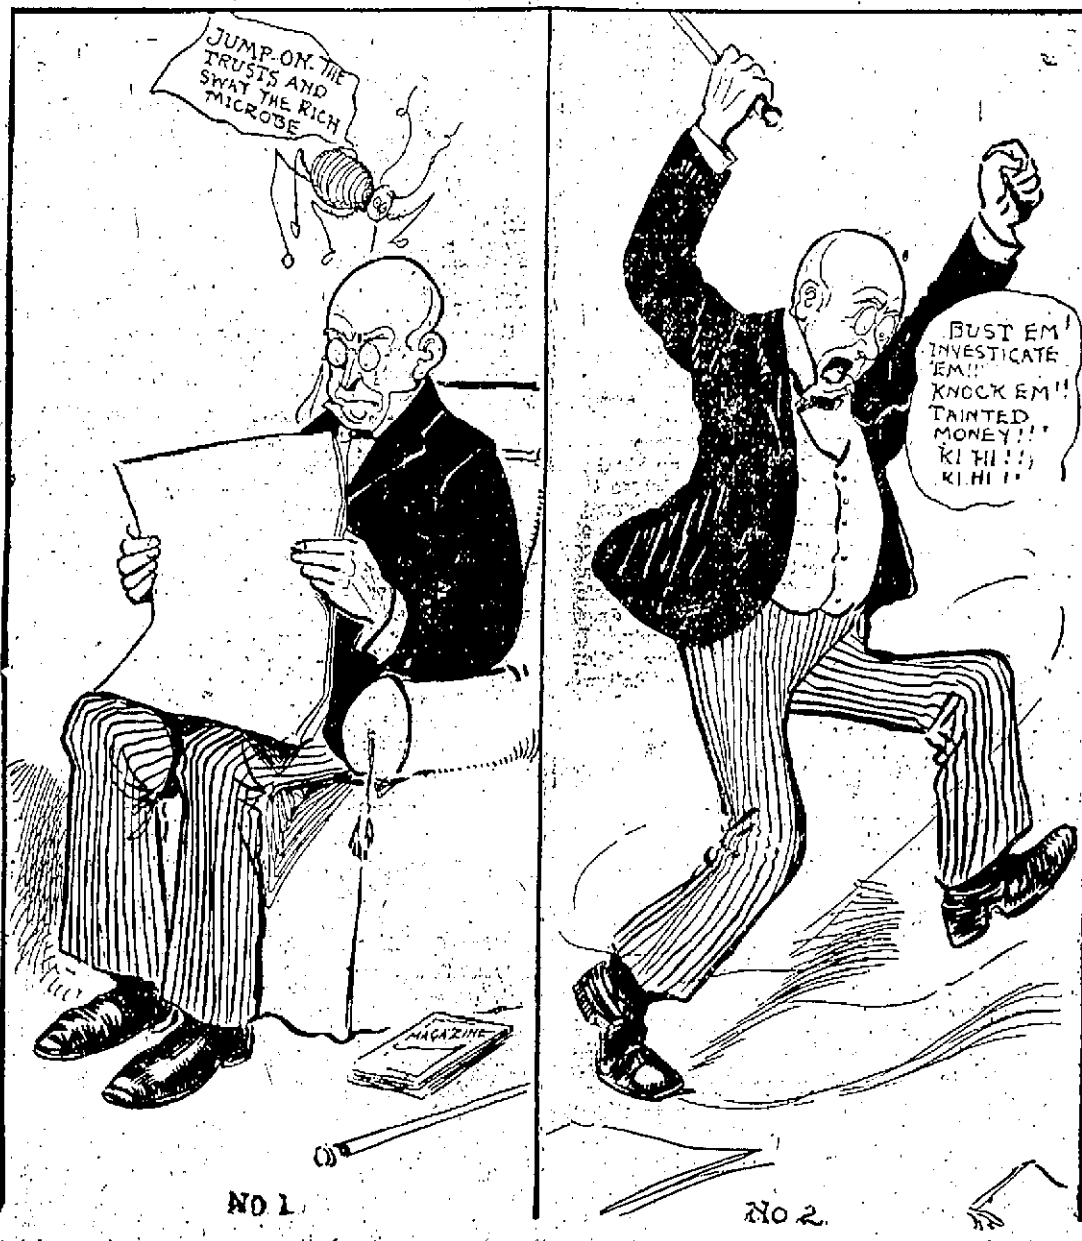

Because a Mr. Southey boasted he coached the winner of the Walworth county high school declamatory contest while visiting in Sharon and owing to the fact that Geneva secured first place and Sharon second on the marking of the judges, the Sharon people rose in their might and proceeded to take affidavits after affidavits to prove to the district committee that they, not Geneva, were entitled to have their speaker compete at the contest at Whitewater tonight. It was a case of boomerang for the Sharon contestants, as the district committee not only decided that the winner of the Walworth contest from Geneva had complied with the rules of the association, but also that through mistake of the judges Sharon was not entitled to second place but relegated to third. The whole affair was caused by the boasting of Mr. Southey, which, if proven, would mean that the Geneva contestant had received professional coaching which is barred by the rules of the association. Of course Sharon wanted all the honor coming to them and proceeded to make a fuss over what they considered an unfair advantage taken of their speaker. The case was brought before the association committee last night, composed of H. C. Buell of Janesville, John Hageman of Port Atkinson, I. B. Davies, principal of the Delavan school, A. W. Beeber, principal of the Stoughton school, and Fred Thomas, principal of the Columbus school. The fifth member of the committee was not able to be present. Mr. Stauff, principal of the Sharon school, represented his side of the controversy and Mr. Snow of Geneva defended his representative. The committee, after hearing all the testimony, decided that the Geneva contestant had no special training and furthermore found that on examination of the individual marks of the contestants Sharon was not even entitled to second place, but received third instead. The meeting was held in the High School building here.

WARM SENATORIAL WAR IN TENNESSEE

Present Incumbent and Governor of
State For Three Terms in
Close Contest.

[SPECIAL TO THE GAZETTE.]
Nashville, Tenn., May 11.—The first senatorial primary in the history of Tennessee will be held tomorrow, and the democrats will decide whether to return Edward M. Carmack to the senate, or to displace him with ex-Governor Robert L. Taylor. The outcome of the race is doubtful in the extreme. Both sides apparently are confident of victory. Ex-Governor Taylor is one of the most prominent democratic leaders of Tennessee, and is the only man who has been honored with the governorship three times since the war. He has been a candidate for the senate three times before, but always before the legislative general assembly. This time he has been awarded a primary and his supporters believe this will help him along to victory. But despite the fact that ex-Governor Taylor has drawn crowds of ten thousand or more in one assemblage, he undoubtedly has the fight of his life to overthrow Senator Carmack, who is the absolute master of the democratic machine, a brilliant stump orator and one of the most bitter editorial writers in the south. Democrats generally consider it especially unfortunate for the party that the two leaders should clash, and it means "the survival of the fittest" for the result of the primary will rule one or the other off the democratic chessboard forever.

Pay Director Rand Retires.
Washington, D. C., May 11.—Today, after many years of efficient service as an officer of the United States navy, Pay Director Stephen Rand was placed on the retired list of the navy on account of having reached the age limit of 62 years. His retirement causes a number of changes and promotions in his branch of the service.

GEOLOGICAL SURVEY TO INVADE ALASKA

Hydraulic Operations of Government
Department Will Be Extended to
Gold Territory.

[SPECIAL TO THE GAZETTE.]
Washington, D. C., May 11.—Persons interested in the development of the mineral resources of Alaska will welcome the news that the United States Geological Survey will extend its hydrographic investigations to that territory during the coming summer. The work will be confined this year to the Nome region, in the southern part of the Seward peninsula. A party directed by John C. Hoyt will spend the entire season collecting information in regard to the more important streams, now utilized by mining corporations. Later, the work will be extended to streams in other parts of Alaska. The fact that in 1905 four-fifths of the gold output of Alaska, which approximated \$15,000,000, was taken from placer deposits shows the great economic importance of such an inquiry. The value of hydrographic surveys to Alaska is also illustrated by the fact that the installation of hydraulic plants needed for the recovery of gold from gravels in the Klondike region is delayed because of the lack of reliable data regarding the runoff of streams.

[SPECIAL TO THE GAZETTE.]
Columbia, S. C., May 11.—Jubilant over the fact that their association showed the largest increase in membership of any state during the year, the members of the South Carolina division of the Travelers' Protective association rounded up in large numbers here today for their annual convention. The assembly hall of the Chamber of Commerce was filled to overflowing when the convention was called to order at noon. The session was opened with prayer by Rev. Samuel M. Smith, and an address of greeting was delivered by Mayor T. H. Gibbs. Routine business occupied the greater part of the afternoon. The annual convention banquet takes place tonight. The business sessions tomorrow will be interspersed with various features of entertainment, including a trolley ride about the city and a barbecue under the auspices of the Chamber of Commerce.

GRAND DUKE LEAVES NEVER TO GO BACK

Alexis Building Beautiful Palace in
Paris and May Become Natural-

[SPECIAL TO THE GAZETTE.]
Paris, May 11.—Grand Duke Alexis is so discouraged by the insecurity of things in Russia that he has shaken the dust of his native land forever off his feet and has purchased a permanent residence in Paris. His new home, a sumptuous palace at Parc des Princes close to the fortifications, will when completed, with the possible exception of the Trianon, be the stately private residence in the French capital. Alexis has always been a Parisian at heart and is said out of sheer disgust with his own country, and above all with his imperial nephew, to have recently expressed a desire to become a naturalized Frenchman.

GREAT SALVATION ARMY CONVENTION

Leaders of Organization in United
States and Canada Gathered at
New York.

[SPECIAL TO THE GAZETTE.]
New York, May 11.—Hundreds of officers and leaders of the Salvation Army from throughout the country and Canada have gathered in the metropolis for the largest congress the organization ever has held outside of London. The congress will last five days, and a program replete with interesting features has been arranged. In the Hippodrome, Sunday evening a great mass meeting will be held for the benefit of the San Francisco sufferers. Commander Eva Booth will conduct the big meeting, and in it will "sing the song of love" and tell the story of the broken heart. A living cross will be formed as Miss Booth sings, and 200 women, wearing white, will come on to the stage at intervals and arrange themselves in the form of a cross. The regular sessions of the congress will be held in Salvation Army Hall. Other meetings of especially interest are to be given at midnight tomorrow night in theatres on the Bowery and in Herald Square, following torchlight processions. These will be regular salvation meetings, and it is expected that many converts will be made.

SILVER JUBILEE OF MACABEE SOCIETY

[SPECIAL TO THE GAZETTE.]
Port Huron, Mich., May 11.—The Knights of the Macabees, the supreme headquarters of which order are in this city, was incorporated in this state just twenty-five years ago today. During the summer the silver jubilee will be celebrated by the branches of the order everywhere. From a modest beginning, the order has spread throughout the United States and Canada and now has a total membership exceeding 325,000. Since its organization it has disbursed benefits aggregating \$25,000,000.

[BY ASSOCIATED PRESS.]
Chicago, May 11.—Nearly every railroad running out of Chicago was represented today before the interstate commerce commission when the investigation into the relations of the Standard Oil company with the rail-
roads was resumed. Attorney General Laforge, representing the Standard Oil company of Kentucky, opened the proceedings by a cross examination of Maywood Maxon of Illinois, who was the last witness yesterday.

ROCKEFELLER INSTITUTE IS FORMALLY DEDICATED

It Is A School For Expert Physicians And
Surgeons And Was Founded By
A \$3,000,000 Gift.

[SPECIAL TO THE GAZETTE.]
New York, May 11.—The Rockefeller institute for Medical Research which owes its existence to a gift of \$3,000,000 from John D. Rockefeller, was formally dedicated this afternoon with simple ceremonies. Those in attendance at the dedication included eminent medical men, educators and officers from various parts of the country. The speakers included President Eliot of Harvard University, Nicholas W. H. Welch, president of the board of directors, and Dr. L. Holt, secretary of the board. The Rockefeller Institute is the first and only one of its kind in the United States. It was founded by Mr. Rockefeller after the death of his baby granddaughter in Chicago five years ago. She died of dysentery, and the best physicians in Chicago were unable to save her. In the hope that other babies might be saved from this and other diseases, Mr. Rockefeller was led to establish an institution where these diseases might be studied by experts who would devote themselves to seeking antidotes for them.

The board of directors established nearly twenty scholarships in various laboratories in this country and also sent several medical men to Europe to pursue investigations there. Mr. Rockefeller gave \$200,000 for this purpose. At the end of the first year the board submitted a report to Mr. Rockefeller of what had been done, and he gave \$1,000,000 to carry on the work. He decided that New York City should be the home of the institute, as it was destined to be the center of medical teaching in this country. In 1902 he gave an additional \$1,000,000. The new buildings of the institute dedicated today occupy a site at the foot of East Sixty-sixth street. Work on the structure began in July, 1904. The main building is 60 by 150 feet and is five stories in height. All the

Mrs. Victoria Potter Remains Recorder for R. N. A.—Costs Paid and Books Returned.

Word having been received from the Supreme Oracle to the effect that the action of officers of Crystal Camp No. 132 of the Royal Neighbors of America in deposing its recorder, Mrs. Victoria Potter, was irregular and illegal, the board of lady managers last evening sanctioned the execution on the books, papers and money gotten out by Justice Reader to compel the payment of the \$7.93 costs and six cents damages incurred by the action brought in his court on May 5 to recover the said documents, and the property was thereupon delivered to them by Constable Alvah Maxfield, in whose custody it has been since the fight opened. The lady managers then went to the home of Mrs. Potter and after offering an apology, signed the records to her keeping again. Mrs. Potter will in all probability continue to act as recorder until her term expires. In the meantime the lodge has taken no official action with regard to the payment of the damages and costs. No regular meeting could be held or order issued without the books last Wednesday night and when the Neighbors meet about two weeks hence there is some possibility that they will refuse to take responsibility for the ac-

Future Racing.

Throughout the summer there will be matinee racing meets monthly and in the latter part of August, there will be a particularly large program, possibly extending over two days. There has been a wonderful revival of interest in fine and fast horses in and around the city and something of the old time name of Janesville may be regained. If the people give the show and matinees their hearty endorsement this year Mr. Bostwick who owns the fair grounds promises to expend an immense sum of money next year in remodeling and replacing the buildings and transforming the track and the grounds into the finest in this part of the country.

Last Evening.

Last evening shortly before sun-
down fire destroyed a number of
buildings and straw stacks on a farm
near Avalon, entailing a loss of about
\$1500. The property was owned by
Mrs. Eda Scott of Clinton and ten-
anted by Gip Larson. The flames are
thought to have originated from a
small bon fire built by some boys
near one of the straw stacks. The
farm machinery and all live stock,
but for a few chickens, was saved.
The efforts of the neighbors prevent-

INTEREST IN PICNICCommittee From Freeport Woodmen
Lodge Will Visit Local Broth-
ers Monday.

Florence Camp, No. 266, Modern Woodmen of America of this city has received notice from the Freeport lodge that a committee from that city will visit them on Monday evening next for the purpose of arousing interest in the annual picnic. This is to be held in Freeport on Thursday, June 7. In the way of advertising the event they have hit upon one idea that is a veritable stroke of genius. It is to send up hot air balloons. These balloons will contain orders for various articles of considerable value, which will become the property of the finder simply upon the presentation of the order at headquarters. An order has been placed for twenty-four balloons and they will be sent up each evening at 8 o'clock on Wednesdays and Saturdays, commencing on Saturday, May 12, until Saturday, June 2, and these balloons are expected to make long trips before falling to the ground, and it is the reasonable expectation that the denizens of northern Illinois and southern Wisconsin will be anxiously scanning the heavens for these aerial treasure troves and incidentally will be talking about the big picnic. The orders will be worth securing.

INTERSCHOLASTIC
SATURDAY, MAY 26Entries Will Be Received After Next
Week—Myers Foreman of Jury
on Finish.

The twelfth annual field and track meet of the Wisconsin Interscholastic Athletic association will be held at Camp Randall, Madison, Saturday, May 26. This date has been announced by Manager E. D. Angell and entries will be received after next week. About fifty high schools from all parts of the state are expected to compete for the prizes. The silver trophy cup will be allotted to the school winning the most points; medals will be given to all point winners, a gold medal for first, a silver medal for second, and a bronze medal for third, and silver medals for the members of the winning relay team. If either East or West side Milwaukee wins the meet this year they will receive the cup for good, as both have won the right to hold it for one year twice. Madison won first once and tied with Milwaukee Academy in 1900. Each held the cup for six months. Ishmehing, Marinette and Menomonie have each won the trophy once. The list of officials for the meet has been arranged and Harold Myers of this city has been named as one of the judges of finish, being foreman of the jury of five.

JANESVILLE EXPECTS
THE HONOR TONIGHTGreat Interest Shown in the Result
of Tonight's Declamatory
Contest.

This evening at Whitewater will occur the District Declamatory Contest. Janesville high school will be represented by Miss Erma Shoemaker, who last year won first place. The students are confident that she will acquit herself to the credit of the school that has always held a high place in the state declamations. Many expect that she will get first honors or at least second, and will represent the district in the state declamatory contest, which will be held at Madison later. Owing to the fact that it is impossible to get back until Saturday morning there will not be many students accompany the speaker.

MORE QUESTIONS ON
GOOD ROADS PROBLEMChances of Interesting Developments
Are Increasing Daily—Has
Its Effect.

Several broken walks and bad strips of road have been repaired since the announcement of the novel contest for pictures and fifty-word essay for prizes offered by the Gazette. There are, however, so many "sore spots" left that there will be plenty of opportunity for good pictures and plenty to write about. It is looking for a subject for a picture or essay just walk about the business streets. Look at the pitfalls for the unwary and the bad spots in the walk. The streets in the downtown district are in good condition where they are paved, but after you leave the paving the opportunities for pictures is manifold. One walk on South Main street, recently condemned and rebuilt, has been repaired with tar. It had not been dried before carts were wheeled over it and people had walked on it and it is a picture the pen can easily describe. Then, there are walks on the east side of Main, both north and south, adjacent to Milwaukee street that are a crying shame. The street commissioner may get busy before you do, so get your photographs early. Remember the conditions: Two dollars for the first prize and one dollar each for the next three best. Do not be afraid to try as you have plenty of opportunity between now and May 23 to secure an excellent picture.

JOINT DEBATE ON AN
INTERESTING TOPICTwo High School Debating Societies
Will Discuss the Great Pan-
ama Canal.

May 25th is the date set for the debate between the Rusk Lyceum and the O'Fallon. These two literary societies of the high school are both putting in their best efforts to make this debate the best that ever occurred between societies of the same school. The question which was decided upon is: "Resolved, That the Interstate Commerce Commission Shall Have the Power to Fix Freight Rates." Those who will represent the Lyceum are Orville Swift, Jerome Davis and Earl Brown. The Forum will be upheld by William Spahn, James Hoague and Harold Jones. The debaters are being exempted from all other work in the societies, so that they may put the time on the debate. A joint picnic will be held by these two organizations on Decoration Day. The place has not yet been decided, but it is expected that it will be either at Lake Koshkonong or up the river.

INNOVATION MADE IN
DEBATING SOCIETIESGenuine Old-Fashioned Spell-Down Is
Planned by the Rusk Lyceum
Society.

There has been an innovation in the club literary work of the high school. The Rusk Lyceum has taken up the old-style, spelling-down contests. These will occur about once a month and instead of taking up the spelling of big words, they will start on the small words that are so often misspelled by a large majority of people. This plan was started by a suggestion made by Mr. Manross, the critic, and the boys wishing to improve themselves in the art of spelling have taken it up and not only expect to gain by the move, but also to derive a great deal of pleasure from the same.

SAW FRISCO TOPPLE
AND FALL IN RUINSActors at the West Side Theatre
Were in Ruins of the Great
Western City.

Harry Spingold and his company, which includes Miss Myrtle Henniss, Jack Holden and Miss Mable Holden, who are doing an exceedingly clever one-act musical farce comedy, and Tom Mack, the premier blackface minstrel, who is a veteran in the minstrel line, and made up a part of the bill at the West Side theatre, reached Chicago last week from San Francisco, where they were during the earthquake and fire. Their appearance indicated that they had been in a wreck of some character and they said they were glad to get away alive. Their trunks they say were at the Mission, a vaudeville theatre where they were playing a week's engagement, their trunks were practically saved and would reach them this week.

Mr. Spingold says: "We were stopping at the Colorado hotel on Eddy street, having rooms on the third floor in the rear section of the hotel and were asleep when the quake first made its appearance. I first was awakened by a deep rumbling sound which gradually grew louder and was speedily accompanied by a slight trembling sensation and then a feeling like the hotel was being raised rapidly into the air. This was followed by several quick shocks or violent rocking sensations which caused the plastering to fall from the walls and ceiling, a portion striking Mr. Holden and knocking him down. We made our way to the corridor of the hotel in the darkness and with a score or more of other guests made our way to the street by the main stairway. We had scarcely gained the street when the front wall toppled out, barely missing our heels, and I am confident that some of the other guests on the upper floors were killed. Mr. Mack here joined us and we tried to render some assistance to the injured, but were soon driven over to Market street by the flames which followed the explosion of gas in several of the wrecked buildings. During the afternoon we were driven to the Golden Gate park, where we remained a few days and nights without sleeping. We then succeeded in getting to Oakland, where we were furnished with transportation to Omaha over the Southern Pacific and from there to Chicago. All along the line hundreds of people were at the stations with hot coffee and eatables and we made up our minds before we had been away from Oakland very long that the American people were the greatest on earth when it came to generosity and aid for the distressed. The descriptions that have been wired of the destruction of property and suffering, as well as looting, are all correct, there being but little exaggeration. We witnessed a scene we never want to encounter again and hope no one else ever will."

GRADUATION PLANS
NEARLY COMPLETEDPreparations for the High School
Commencement Rapidly
Progressing.

Tuesday, Wednesday and Thursday, the 12th, 13th and 14th, of next month are the dates set for the graduation exercises in the local high school. The programs though not arranged as yet have been partially outlined. On the first evening will be given the class exercises, such as the welcoming address, class history, prophecy, class poem and class will. There will also be a number of scientific theses, literary essays and probably declamations. The second night will be devoted to the class play, "As You Like It." Those who are taking part in the play are working in earnest and are reporting for rehearsal at seven o'clock in the morning. Those who oversleep are fined according to the time late and this money is to be used for a picnic or a spread at the end of the school year. Those who are in the habit of oversleeping will pay the most for their pleasure. The third night is commencement proper. The program will consist of theses and essays. Three more class exercises will also be given on this evening. The presentation of the token and the delivery of the valedictory and rendering the class song. The song has been completed and the practice on it will be commenced next week. The token has practically been determined upon, but this is a matter which is not made public until the unveiling on the last evening. The diplomas will be presented on this night by the president of the school board.

...FORTY YEARS AGO...

Janesville Daily Gazette.—Friday, session at Norfolk, and the trial of May 11th, 1866. Jeff Davis is very much incensed against Henry S. Foote on account of his recent "History of the Rebellion." He says Foote is "a constitutional liar" and he has often told him so. Foote it will be borne in mind, was very severe in his criticism of the incompetency and mismanagement of Davis.

Jeff Davis has been indicted for treason.

A wicked editor says that at church some people clasp their hands so closely that they are unable to get them open when the contribution box comes around.

New Goods—Smith and Bostwick advertise a lot of new carpets.

Baltimore, May 11th.—Yesterday, Jefferson Davis was indicted for treason by the Grand Jury of the United States District Court, now in

session at Norfolk, and the trial of the prisoner will take place it is supposed, in June.

The Mormons.—A Salt Lake correspondent says the Mormons are buying up the U. S. muskets, rifles and other arms of the troops now being mustered out there. He thinks they would not hesitate a moment to enter into open hostility against the Government at the bidding of Brigham Young. It Congress shall take any action unfavorable to polygamy much trouble and bloodshed is anticipated. Assassinations occur almost daily, and scores of leading gentlemen have been warned. The absence of U. S. troops makes the "salts" blood thirsty.

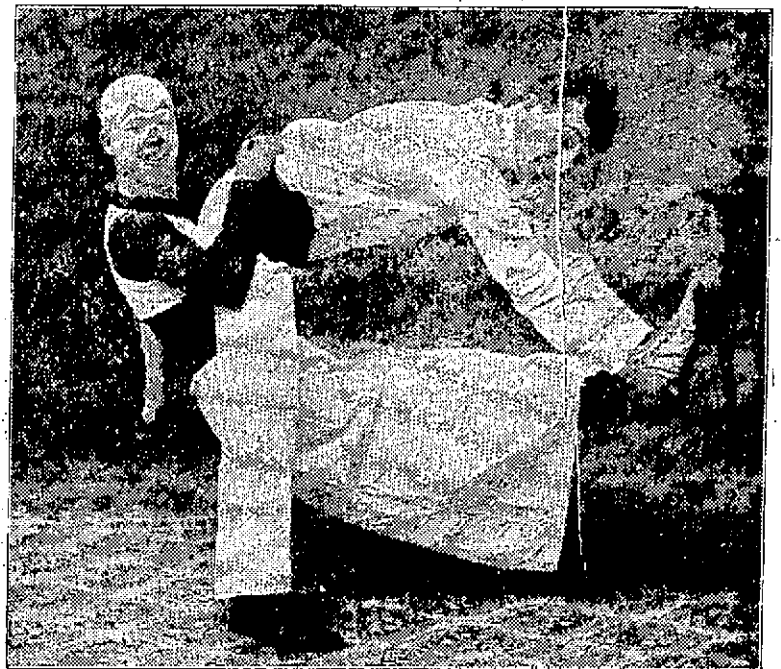

Well Along.—From the information we got from the surrounding country we conclude the farmers have nearly if not quite completed the work of sowing. This magnificent weather will bring the crops right along.

HAROLD MYERS TO BE ONE OF CONTESTANTS

Janesville Boy Is One of the Stars of the University Track Team.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., May 11.—Wisconsin is not confident of winning the dual track athletic meet with Chicago university at Marshall field Saturday. The most important reason for this is the faculty action barring Charles L. Parsons, Wisconsin's best sprinter, from participation in the meet on account of being behind in his work in the college of engineering. The bigger team left Madison this afternoon. The Wisconsin entries are as follows:

100-yard dash—Vreeland, Waller and Mueller.
220-yard dash—Waller, Vreeland and Mueller.
440-yard dash—Waller, Rideout, Kleinfort, Vreeland, Muller and Myers.

Letter to Mr. Charles Jellyman, Janesville, Wis.

Dear Sir: Once in a while you painters can pick up a first-rate "painter" in your own trade by taking the experience of other painters as a guide.

Whitaker & Son, painters at Pond Creek, O. T., had a house that measured up 2,700 square feet. You know what a good job of lead and oil would cost for it as well as we do; and how many gallons it would require.

They took nine gallons of Devco lead-and-zinc paint on to the job; painted the house two coats, and had paint enough for a shed and summer kitchen one coat; \$90 square feet more. They brought back one gallon of paint unused.

Can you match that with any other paint? We have the statement of these facts; and we have seen the job.

Yours truly,

It is generally only in petty

interests that we run the hazard

of not trusting to appearances.

On the day that a store is not

advertised the owner rates his

interests as "petty," and thus

trusts to something besides "ap-

pearances."

There is some talk of having good

streets in Janesville after all.

McGillivray appears to have taken

to the woods, and Connor is still in

hiding.

The scolding cauldron of state polit-

ics is boiling furiously and something

is liable to happen soon.

There is no reason why Lenroot

should withdraw from the race. The

more candidates the merrier.

What a man says he sold a horse,

for and what the purchaser said, he

bought it for are usually two differ-

ent figures.

Horsemen who are exhibiting horses

for sale should be careful not to

try to drive over pedestrians especial-

ly on the public streets as the people

on foot have as much right to the

street as the horsemen.

The "free alcohol" bill, referred to

in another column passed the house

with practically no opposition. The

claim is made that free alcohol means

cheaper fuel for light and power and

that the country at large would be

greatly benefited by the measure,

while the manufacturers of wood al-

cohol would be the only sufferers.

The city hall in Chicago has been

condemned and pronounced unsafe

for occupancy. Like the Stanford

University buildings in California,

the city hall is an object lesson in

graft. The taxpayers paid for a good

building and got a shell. Honesty and

public buildings don't always go hand

in hand.

It is an easy thing to antagonize

the United States senate, as the

junior senator from Wisconsin is

doing, but it adds nothing to the

strength of the antagonist. If there

is any place in the country where a

man strikes his level, it is in the

senate, and time is only necessary to

complete the drama.

The civil service farce as applied

to employees in state institutions is

having an ending in the Dane county

court. The constitutionality of the

law being questioned. The measure

deserves defeat. The law adds nothing

to efficient service and is a handi-

cap to superintendents and stewards

in authority.

The question of good roads will

bear any amount of discussion. They

are of more importance to the farmer

than any subject with which he has

to deal. Nature has provided Rock

county with a good supply of material

close at hand. Every neighborhood

has its gravel pit and there is no

reason why the county should not

have the best roads in the state.

IT MAKES ALL THE DIFFERENCE.

"It makes all the difference whose

ox is yoked." This old adage applies

to the tariff every time the question

is up for discussion. When congress

was considering the report of the

Taft commission and an effort was

hol, which are no other than the whiskey trust, awoken to the fact that a large business has been built up which they need, and they are determined to get it for their own by fair means, or by foul.

"Misleading information has been furnished to the farmers of the United States, and even the Michigan farmer has been led away from his real interests and is supporting this measure to a very great extent through his congressmen.

"A great campaign of publicity, which is costing fabulous sums of money, and which has all been on one side has blinded and hoodwinked the agricultural population into believing that the passage of this law will at once give him light, heat and power at such prices that the Standard Oil company will cease to be a factor, while really he has been made the unconscious assistant of the whiskey trust in putting through a legislation which will benefit them and not him, when he fully realizes the situation, he will find that the question of fuel, light and heat will have very little to do with the ultimate results and are merely a blind.

"He will then realize that not only has he failed to receive any benefits from it, but has unconsciously assisted in pulling down one of the foremost industries in our state and is bringing hardship upon himself.

"Every influence possible should be used with the senators from this state to defeat the 'Free Alcohol' measure, which is now in the hands of the finance committee of the senate. If it becomes a law, the price of denatured grain alcohol will be so greatly reduced that wood alcohol will not be able to compete with it, and the demand for this product will cease, seriously crippling, if not annihilating a great industry which is now of untold value to the state of Michigan.

"It will result in the destruction of the chemical plants engaged in the making of wood alcohol, and other by-products of the manufacture of charcoal. Thousands of people will lose their employment; the settler and small farmer will have no place to sell the timber, which he clears from his lands, and much distress will be occasioned all through the state.

"The agricultural population have been deluded by the sophistry and exaggeration which has been placed before them in great quantities, and their losses in the destruction of the wood alcohol business will prove of far greater injury than the benefits they would obtain from this law in many years.

"The patience, labor and thought of a generation in the building up of a magnificent industry in our commonwealth would be undone in the wink of an eye, and Michigan cannot afford to be so crippled to please a lot of capitalists, who have never had any interest in or done anything for her."

These are the things with which congress has to contend in dealing with the tariff question. It is easy to say that the tariff fosters trusts and encourages monopolies, and the statement may contain more than a grain of truth. It is possible also that the much discussed infant industries are no longer infants, but perfectly able to stand alone and fight their own battles, but the fact remains the tariff with all the objectionable features is infinitely better than free trade and a revision of the tariff, in its final result would mean free trade. Regarding the question of "Free Alcohol" which just now interests the state of Michigan, it is an open question whether the country at large would not be benefited by the passage of the bill, yet in letting down the bars, in this case, it might lead to complications along other lines which would prove injurious.

The republican party in the father of protection. That party is still in power and it is safe to trust the issue in its hands for safe and conservative solution.

LIFE INSURANCE.
That the life insurance business in this country is undergoing a revolution is apparent to the most casual observer. Policyholders, numbered by the millions, have awakened to the fact that the business to which they have contributed so freely has been recklessly managed and their money ruthlessly squandered.

The men at the head of the old line mutual companies under investigation, had long enjoyed the confidence of the insurance world and their honesty, as well as their ability, was never questioned.

They were trusted public servants, responsible to no one but a board of their own creation, and drawing the most princely salaries of any class of employees. They were custodians of funds larger in amount than the money contained in the government vaults, and they were at liberty to spend or invest these funds without let or hindrance.

As a result, judgment was warped and conscience stifled, until the wrong seemed right, and not until investigation brought to the surface the recklessness of these trusted employees was any wrong recognized or admitted.

The discovery was long since made that other people's money is the easiest money in the world to spend, and the man who handles this class of funds must possess more than an acute conscience if his hands are kept clean and his record free from the taint of dishonesty.

The temptation placed in the way of the trusted life insurance officials was peculiar, and when the call was made on them for campaign funds to aid in defeating the free silver craze, which threatened to ruin the country, the demand seemed not only just but

imperative. The same condition was true concerning investments. The fund was too large to retire from circulation without serious results and so many investments were made which now seem questionable.

These were questions of judgment rather than of conscience and judgment is prone to err. It is much easier to criticize than to perform and the curbstone critic is not usually a man of ripe judgment.

The insurance investigation could not have come at a better time, as the era is prosperous, and every man has money who possesses the disposition to work. It has resulted in the loss of tons of thousands of policies, and while this has not weakened the financial status of the companies, it means a personal loss to many individuals who may not be in position to reinsure.

What the final result will be may not yet be determined, but it is safe to say that it will be wholesome. The business will be placed on a better basis and policyholders will see to it that their interests are more intelligently safeguarded. The Mutual Life policyholders have already organized a national association with headquarters in Washington open to all interested parties on payment of a small membership fee.

Several states have taken similar action and the country seems thoroughly aroused to the situation. These movements are along the right line and they mean much to the future of a business which has assumed such great magnitude in this country.

The good work should go on until life insurance is placed on a business basis and conducted in a business-like way. When this is done the mutual feature will be abolished and the elusive dividend eliminated from the contract. Then, and not until then, will life insurance be furnished at what it is worth. The time to pay a dividend is when the premium is paid. This is cash-in-hand, worth one hundred cents on the dollar, and much more tangible than the promise of an enthusiastic agent for a dividend at some unknown date in the dim future. Let the work of revolution go on until the business is revamped and placed on a solid basis.

TEACHERS SHOULD
NOT BE JANITORSState Rural School Inspector Wood
Made Plea for Girl
Pedagogues.

It is possible that, after the next session of the Wisconsin legislature young lady teachers in the rural schools of the state will no longer have to wield the broom and pail. A plea for the girl pedagogues who are required by inconsiderate rural school district officers to build fires and sweep floors was made in the convention of county school superintendents at Madison yesterday by L. W. Wood, state inspector of rural schools. He declared it to be wrong that young women hired for the work of education should be subjected to the unpleasant and unreasonable work of a country school janitor. He suggested the enactment of laws giving rural school officers power to incur limited indebtedness for certain purposes such as necessary repairs. Legislation requiring all new school houses to be adequately provided with heating and ventilation facilities was advocated.

LARGE NEW TOBACCO
WAREHOUSE OF BRICKLikely to Be Erected on Site at Inter-
section of Milwaukee and Pleasant
Streets.

Railroad officials and surveyors from Chicago arrived over the Northwestern this noon to look over the premises and make tentative plans for a sidetrack to the piece of land known as the Fountain House property at the intersection of West Milwaukee and Pleasant streets. It is understood that if arrangements satisfactory to all parties concerned can be made, a large, three-story brick tobacco warehouse will be erected there and work on the same will be commenced in the very near future. Thomas E. Welsh is the party mentioned as the moving spirit in the project, but he refuses to make any statement at this time and it cannot be learned whether or not others are to be associated with him in the enterprise.

TWO FAMILIES MOVED
TO MENASHA, WISCONSINMr. and Mrs. Ben Plowright and Mr.
and Mrs. Peter Whitman Leave
Janesville.

Yesterday Mr. and Mrs. Ben Plowright and Mrs. Peter Whitman left for Menasha, where Mr. Plowright has purchased the "Twin City Laundry" and for whom Mr. Whitman will work. Mr. and Mrs. Plowright were given a farewell party Wednesday evening at the home of Mr. and Mrs. Winbiger on High street by the High King Club. The game for which the club is named furnished the amusement of the evening and refreshments were served. Upon departing both Mr. and Mrs. Plowright were presented with a handsome solid silver souvenir spoon. About thirty participated in the festivities of the evening.

At Lombard spur, five and one-half miles west of Owen, August 10th of Fairchild, married and having three children, was crushed to death by rolling logs.

WHAT THEY SAY.

It's quite common for a mother to bring in her family to the dentist and say, "Dr. Richards, I want you to fix up the teeth of these children."

"My neighbor, So-and-So, is a patient of yours and speaks highly of your work."

"They tell me YOU don't hurt and I've had enough experience with dentists to wish to have my children dealt with as easily as possible."

By far the largest part of Dr. Richards' growing practice is brought to him or sent to him by well-pleased former patients.

Very often they will send up a little note by the stranger, saying: "This is my friend, So-and-So. You didn't hurt me and I recommended him to come to you."

So it goes. Try Dr. Richards yourself and you, too, won't regret it.

JANESVILLE PURE MILK CO.
Gridley & Craft, Props.

Salvation Army Officer Farewell. Lieut. Carroll, who has been assisting me in the Janesville corps for the past few weeks, is leaving Sunday evening, May 13th, 8 o'clock, in the Army hall, 215 West Milwaukee street. We are sorry to lose him, but it is all in the war. God has wonderfully blessed us in our labors in this corps. In the past seven weeks thirty-six men and women knelt at the mercy seat crying to God for mercy. In April we had twenty-five souls, and I want to thank the people and kind friends of Janesville and vicinity for the way they helped us to raise \$225 for the self-denial effort. Many thanks.

CAPT. FLEMING.

Albert Dorsey Again: Albert Dorsey appeared in municipal court this morning to plead guilty to drunkenness. He said that he had been working in Beloit since May 1, but came back here Wednesday. He offered to go away and stay away from the city if the court would suspend the sentence of \$4 and costs or 10 days in jail, but the court allowed that it could not put implicit faith in Mr. Dorsey's promises.

C. E. CONVENTION MEETS AT MADISON

State Gathering At Chautauqua Grounds This Summer—Many Outing Features.
(Special to THE GAZETTE.)
Madison, Wis., May 11.—The Christian Endeavorers of Madison are making elaborate preparations for entertaining the state convention of the society, which meets at the Monona Lake Assembly grounds June 20-July 4. A program of rare excellence will be offered. Among the speakers engaged are the Rev. E. Bourner Allen, of Toledo, O., who will represent the United Society of Christian Endeavor; Miss Eva Shultz, and Miss Grace Curtis Glenn, the well known missionary lecturer. A comprehensive program is being arranged by the state board. On the fourth of July the services will be of a patriotic character. The convention will be opened Saturday, June 30, by President W. O. Carrier, of Carroll college, the state president. In the evening there will be a song service on the lake shore and an address in the auditorium by the Rev. E. Bourner Allen. On Sunday morning the delegates will attend church services in the city. Other meetings include vesper services, a morning watch, conferences on C. E. work, a Junior rally, a talk on the subject of the coming memorial headquarters, "candlelight" service, the reports of committees, the awarding of banners, talk on the "Increase" campaign, and addresses each day by pastors, laymen, prominent endeavorers, and by men who have achieved distinction in public life. One feature of the convention, as attractive as it is unusual, will be the setting aside of two afternoons to be devoted exclusively to athletic sports, which will take the form of contests, games and races. About a thousand delegates and visitors from all over Wisconsin are expected to attend. They will be entertained, not in the homes of Madison citizens as is the usual custom, but in tents under the trees on the assembly grounds. Among the outing features being planned for the entertainment of the delegates are steamboat excursions, picnics on the Chautauqua grounds, trips to the university, state historical library, state capital, and the lake shore drives, and street-car rides. The opportunity to combine a summer outing and a great Christian Endeavor convention is unique, and it is believed is one that has never before been offered by any state union.

MERGE EXHIBIT AND TRI-CITY CONTEST

Gymnastic and Athletic Program at Y. M. C. A. Wednesday, May 23.

On Wednesday evening, May 23, an interesting gymnastic and athletic event will occur in the auditorium of the Y. M. C. A. The annual exhibition of the third and last of the Tri-City Interurban Gymnastic contests will be held. The usual program of the first named entertainment, with several new features will be given and teams of five or six men from Rockford, Freeport and Janesville will compete in the shotput and parallel bar work. To the aggregation winning this series of meets a shield will be awarded. Janesville and Rockford both have better chances than Freeport, the scores for the two former standing as follows: Rockford, 831; Janesville, 753; Freeport, 561. Freeport's low score is due to the few points made at the Rockford meet, when Freeport men made only 145 points, while Rockford totaled 499. In the exhibition seventy-five members of the Senior, Intermediate and Junior departments of the local association will participate. The program has not been arranged, but preparations are underway. There will be callisthenics; work on the horse, parallel bars and horizontal bar; tumbling, bag-punching and athletics.

RELIGIOUS FANATIC CAUSED EXCITEMENT

Woman of Thirty-five in City Being Taken by Brothers to Sanitarium for Treatment.

Crying piteously for some one to release her from her brothers and take her home, a woman of about thirty-five years, thin and emaciated, with hair disheveled and a wild gleam in her eyes, caused much excitement for about twenty minutes at the St. Paul passenger depot this morning. She was being taken from her home in Argyle to a sanitarium in Madison by four brothers and neither force nor kind words could keep her from struggling and moaning. It was evident that her mind was unbalanced and her nervous system a wreck. Her hobby was religion. All the way from Monroe she screamed and fought and the women passengers crowded to the rear of the car. When put aboard the Madison train she was placed in the smoker, but refused to be quieted, crying repeatedly, "And my brothers! They imagined they were trying to kill her."

MRS. JOHN NICHOLSON IS VERY MUCH BETTER TODAY

PETER NEUSES AND MISS ANNA HENNING

Were Quietly Wedded at 6:30 This Morning—Two Marriages Yesterday.

Peter E. Neuses and Miss Anna Henning, who has been housekeeper at his home for some time past, were quietly wedded by Rev. Father W. A. Goebel at half-past six o'clock this morning. Prof. and Mrs. W. T. Thiele witnessed the ceremony. Mr. and Mrs. Neuses departed on an early morning train for Chicago, where they will spend a brief honeymoon. The groom is one of Janesville's prominent and successful business men and the friends of both bride and groom are legion.

Brocker-Krueger

At the home of Mr. and Mrs. A. F. Krueger on North Franklin street at 7:30 o'clock last evening occurred the marriage of their daughter, Augusta, and William Brocker of Beloit. Rev. Koerner was the officiating clergyman. The bride was attended by Miss Martha Korban and Edward Krueger acted as best man. The home was beautifully decorated in white and green and following the ceremony an elaborate wedding repast was served for fifty guests. The happy couple will make their home in Beloit.

Furlong-Swanson

After securing a marriage license at the courthouse late yesterday afternoon, Patrick E. Furlong, proprietor of a livery at Rockford, and Miss Annie Swanson, also of that city, sought out Rev. Goebel's residence with the expectation of making arrangements to have the wedding ceremony performed next week. When, however, it was learned that Father Goebel was out of the city, they decided to have the knot tied by Justice Reeder and at once. Accordingly a special permit was secured, the ceremony performed, and the couple went on their way back to Rockford, rejoicing.

Evansville Wedding.

At the home of her parents, Mr. and Mrs. Alfred Rylatt on North Madison street, Miss Mae Rylatt of this city was quietly married to George W. Evans of Beloit on the 9th inst. Only relatives and a few intimate friends witnessed the ceremony which was performed by Justice Charles W. Lowery. After congratulations and a wedding dinner Mr. and Mrs. Evans took the afternoon train for their new home in Beloit where the groom is engaged in business. Miss Rylatt was well and favorably known here and the good wishes of her circle of friends go with her to her new home.

MILTON COLLEGE TO MEET LAWRENCE NINE

Game Will Be Played in Milton—Other News of the College Village.

[SPECIAL TO THE GAZETTE.] Milton, May 11.—On Tuesday, May 22, the college baseball team will meet the nine from Lawrence University of Appleton, Wis. The Lawrence team are a hard proposition for a small college to go up against and the game is an expensive one for the home team, therefore the friends of the boys should encourage them to win by a large attendance and liberal financial support. The college boys are playing a good game this season and if the university wins they will have to play ball.

Over Half a Million SATISFIED CUSTOMERS

Do you think such an enormous business could be built up and continually increased, if our goods did not have exceptional value and merit? Do you think we could hold the trade of half a million people, if our reputation for doing exactly what we say was not firmly established? Do you think U. S. Senators, Foreign Ambassadors, Bankers, Business and Professional men in every section of this country would keep on using HAYNER WHISKY if it wasn't all right? Do you think doctors would recommend it and hospitals use it, if it wasn't absolutely pure and unadulterated? Just think these things over carefully and then send us a trial order. Your money back if you are not satisfied.

S.S.S. FOR THE BLOOD

The purifying action and curative properties of this great remedy have made "S. S. S. For the Blood" a household name, and thousands who are today enjoying perfect health owe their recovery from blood or skin diseases to this universally used blood medicine. S. S. S. is made entirely from roots, herbs and barks which possess not only cleansing and healing ingredients, but building-up and strengthening properties to keep the blood in perfect order. No one can be well when the blood is impure; they lack the energy and strength that is natural with health, the complexion becomes pale and sallow, the vitality is weakened and they suffer from a general broken down condition. When the waste or refuse matter, which nature intends shall be thrown off, is left in the system because of a sluggish, torpid condition of the expelling members, it is absorbed into the blood, making this vital stream weak, sour and acid, and its condition is manifested by boils, pimples, rashes, blotches and other eruptions of the skin. S. S. S. goes into the circulation and removes every particle of blood taint or poison of every character, makes the blood fresh and strong and gives energy to the entire body. When the blood has been cleansed by S. S. S. all skin diseases and eruptions pass away and the smooth, clear skin, glowing with health, shows that the body is being nourished by rich, pure blood. Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Contagious Blood Poison, etc. are all deep-seated blood disorders; and for their cure nothing equals S. S. S. It does not injuriously affect the most delicate parts of the body and can be taken with perfect safety by old or young. Book on the blood and any medical advice desired without charge.

THE CUTTER OF TO-DAY

There was a time when the artistic designer, the clever, skilled journeyman tailor sought the exclusive field, now they seek the manufacturer with a record, the clothing with a name. The public and not the individual, now receives the benefit of the ingenious Designer's Cuttings.

The science of clothes making has swept past the old stage-shop methods, like the express flying past the old stage coach; it's clothing with brains to-day—clothing with character to it and CLOTHCRAFT is largely responsible for this bettered clothing condition—a condition brought about by the determination to prove the wisdom and profit of wearing high grade ready-for-service clothing.

CLOTHCRAFT garments are to day universally recognized as good clothes without the burden of "good prices."
